ANNUAL REPORT

OF THE

Board of Education.

The schools have averaged nearly twenty-seven weeks. The end of the year finds them in a prosperous condition. Excellent progress has been made.

The teachers without exception having the good will and confidence of scholars and parents.

Archie L. Harris of the depot school returns to college to finish his course. The other teachers have signified their purpose to return, which guarantees success the coming year.

The matter of a school building in the South District for primary Scholars will be laid before the Town district annual meeting.

One hundred and nineteen, five being over fifteen have attended in that district during the year.

The law requires the Board of Education to give all the scholars of the (town) district as nearly equal advantages as may be practicable.

But two schools were kept in the South District the past year, when to give as near equal advantage as other scholars of the town, another school room seems imperatively needed.

A school was opened in district number one, as voted at the annual meeting. It was in care of Jennie Weare, wages five dollars a week.

The Roll of Honor deserves especial commendation, many days of unusully severe weather tested the endurance of those ambitious to be on the roll.
